

Chapter- 9 Utilise, Don't Waste

Answer these questions?

1. Why should we develop our talents?

Ans. We should develop our talents to use it for the benefit of the society.

2. How can one discover one's talents?

Ans. One can discover his / her talents by asking close friends and family members what they think one is good at. The best way to get to know oneself and learn about one's talents is to try different activities and to choose those activities which one can do easily while others find difficulties in doing them.

3. Why is it wrong to hoard food grains?

Ans. Hoarding of food grains creates an artificial shortage which in turn increase the price of it. This is a crime against society.

4. Why did the rich man punish the third man?

Ans. Unlike the other two men, the third man did not utilise the wealth given to him. He kept the coins safe and produced them just as he had received.

5. What is wrong if water is wasted?

Ans. Fresh water is not a renewable resource. The more the population grows the less we will have, if we do not conserve it. We need water to survive. It is a free gift of god therefore we should not waste it carelessly and thoughtlessly without thinking of the damage we are causing.
