SUBJECT- MORAL SCIENCE

CHAPTER – 10

SERVE OTHERS

Q 1. Why should we serve others ?

Ans. We have a duty to others- that of sharing what we have with those that do not have. It need not be wealth. It can be health, intelligence, knowledge, love etc. We must develop consideration for others. We must learn to think of others. We must serve others.

Q 2. How can serving others be serving God?

Ans. Serving others is serving God. God wants us to serve and help others. That is the reason why he has given us so many things, be they health, wealth and intelligence.

Q 3. How can we serve others with our knowledge?

Ans. Our domestic workers, gardeners, drivers and others who serve us can be made literate with our knowledge.

Q 4. Who should serve whom?

Ans. We can serve others in many ways. Many children make promises for the future. Some may say that they will join the army and serve the nation. Others may say that they will become teachers to educate people. We can save our pocket money to help some poor people and can collect old clothes for them. We can make life cheerful and pleasant for those who are suffering. We can comfort those in trouble.

Q 5. How can serving others make us happy?

Ans. Knowing that service to man is service to God, let us do our best to serve others. If we do this we will be making others happy. Seeing us serve His children, God will bless us in every way. If we all serve each other, life on earth would be very happy indeed.
