

STD-2 CHAPTER-5 (DIVISION) MATHS

WORD SUMS ON DIVISION (ANSWERS)

1. No. of flowers = 42

No. of vases = 6

∴ Total no. of flowers each
vase gets = $42 \div 6 = 7$

Ans = 7 flowers

2. No. of children = 3

No. of toffees = 12

∴ Total no. of toffees each
child gets = $12 \div 3 = 4$

Ans = 4 toffees

3. No. of laddoos = 40

No. of boxes = 4

∴ Total no. of laddoos in
each box = $40 \div 4 = 10$

Ans = 10 laddoo

4. No. of children in a class = 36
No. of houses = 4
 \therefore Total no. of children in each house = $36 \div 4 = 9$

Ans = 9 children

5. No. of bottles of soft drink in a box = 40
No. of rows of bottles = 5
 \therefore Total no. of bottles in each row = $40 \div 5 = 8$

Ans = 8 bottles

6. No. of beads Sonali has = 56
No. of beads in each friendship band = 8
 \therefore Total no. of bands she can make = $56 \div 8 = 7$

Ans = 7 bands
