

**ST. THOMAS SCHOOL, DHURWA, RANCHI-4**

**FIRST TERM SYLLABUS 2021-22**

**SUB-SOCIAL STUDIES CLASS V**

**Lesson 3 The Iron Age: page 28**

**Note: Q-A, B, C to be done in book and Q-D to be done in the copy.**

**QA) Fill in the blanks.**

- 1) Bronze.
- 2) Ages.
- 3) 3200 years ago (Turkey).
- 4) Iron.
- 5) Greek and Roman.

**QB) Write T for true and F for false.**

- 1) False
- 2) False.
- 3) False.
- 4) True.
- 5) True.

**QC) Match the following.**

- 1) Ore → Natural Material containing a mineral.
- 2) Spoke → Makes wheel faster.
- 3) Greek → Civilisation.
- 4) Alloy of Tin → Bronze.
- 5) Sickle → Used for harvesting.

**QD) Answer the following.**

- 1) The different time periods are classified according to the material that was used in making tool during that period.
- 2) Iron was used 3200 years ago in Turkey for the first time.
- 3) The Iron tools affected man's life in many ways. They were:
  - a) Farming tools like Sickle, Ploughshares, and axes were developed.
  - b) These tools helped people to dig and turn the soil easily and clear forest.
  - c) Sickles made harvesting crops easier and faster.
- 4) Iron ore was easily available, and people experimented with it and developed steel making technology. So lighter, stronger, and cheaper iron and steel tools became preferred over other metal tools.

- 5) During iron age, trade increased with improved tools. The village and settlements grew into towns, and they became big trade centers. Increasing trade led to money being used in the form of coins. Earlier coins were made of iron but later metals like silver and gold were used for making coins.
